

Hasanov Nodir

[Gmail](#) / [LinkedIn](#) / [GitHub](#) / [Telegram](#)

Hi, I'm Nodir, and I am a Flutter developer. As a very flexible and talented programmer, I have tried myself in several areas, including Desktop, Web, Game, and Mobile programming as well as studied Data Structure and Computer Algorithms.
"Clean code always looks like it was written by someone who cares." - R.C.Martin

EDUCATION

TUIT university

Bachelor of Computer Engineer

Tashkent, Uzbekistan

Aug. 2022

EXPERIENCE

Flutter developer

Ustoz El (iOS/Android)

June. 2023 – Present

Remote (New York, US)

- Developed and implemented complex logic for the UI components.
- Independently designed and built the profile section with multiple functionalities
 - Enabled language change functionality for user preferences.
 - Developed features for updating personal information.
 - Implemented around 10 additional user-centric features in the profile section.
- Ensured a seamless user experience by integrating intuitive and responsive design elements.
- Architected full-featured client-side applications using cutting-edge technologies including DDD architecture and the BLoC pattern
- Collaborated with the team to ensure the UI components met the project's requirements and standards.

Flutter developer

Safar Taxi

Nov. 2022 – Dec. 2022

Hybrid (Tashkent, Uzbekistan)

- Applied Domain-Driven Design to enhance applications' scalability and maximise their performance.
- Leveraged Firebase services such as firestore and messaging extensively to improve the application's development

Flutter developer

Artillery calculyator

July 2023 – July 2023

Tashkent, Uzbekistan

- Improved TTCs using innovative calculations, including full METEO functionality integration.
- Architected full-featured client-side applications using cutting-edge technologies including DDD architecture and the BLoC pattern
- Maintain code cleanliness in the project by checking in code from junior developers using Git

Flutter Developer

Four image one word, game

Dec 2022 – Jan. 2023

Kharkov, Ukrain

- Optimized the UI design for a challenging game with intricate logic
- Architected full-featured client-side applications using cutting-edge technologies including DDD architecture and the BLoC pattern
- Participated in project team meetings and communicated effectively with peers/architects/business analysts/project managers/QA and across other technology staff

Flutter Developer

Chat, messenger

Fev 2023 – March 2023

Tashkent, Uzbekistan

- Architected full-featured client-side applications using cutting-edge technologies including DDD architecture and the BLoC
- Ensured a seamless user experience by integrating intuitive and responsive design elements.
- Utilized Firebase for backend services, including user authentication and data storage

Tashkent, Uzbekistan

TECHNICAL SKILLS

Languages C/C++, Dart, MySQL

Frameworks: Flutter, Android Studio

Developer Tools: Git, Google Services, VS Code, Visual Studio, Postmen, Figma

Researching: Google, AI, StackOverflow, YouTube, Other developers
